

Cohort and evidence map

Status is evidence state, not performance. Evidence strata are never pooled.

Dataset, role, stratum, and scale	Truth source and current lane state
1000G_DEVELOPMENT_WES_RNA development · not_applicable · WES 130; RNA 107 donors	2014 laboratory HLA truth provisional_after_partial_call_correction
1000G_CORRECTED_WGS_WES_RNA same_resource_confirmation · new_library_overlap · WGS 137; WES 130; RNA 107 donors	same frozen laboratory truth blocked_pending_truth_blind_rerun
HPRC_RELEASE2_WGS independent_validation · donor_independent · target 120 donors	dual-method phased-assembly truth pending truth_blind_roster_feasible; independent phased-assembly truth audit required
NCI60_RNA exploratory · donor_independent · 11 strict subjects	independent sequence-based typing eleven-subject strict pilot; underpowered for confirmation
CCLE_NCI60_WES_OVERLAP exploratory · new_library_overlap · 3 overlapping cell lines	complete A/B/C truth absent metadata verified; complete A/B/C truth absent
AFGR_MKK_RNA_WGS exploratory · donor_independent · RNA 166; WGS unresolved	controlled MiSeq truth; mapping pending blocked pending authorization, WGS accession, mapping and truth audit
FNLCR_PBMC_RNA exploratory · donor_independent · 96 reported; controlled	controlled original Sanger truth pending blocked pending controlled access and isolation of non-RNA-informed truth
DICE_SORTED_CELL_RNA exploratory · donor_independent · 91 reported; controlled	controlled DNA HLA file unverified blocked pending controlled access, donor mapping and truth independence
TRANSPLANT_GERMLINE_WES exploratory · donor_independent · donor count unresolved	match status is not allele truth blocked; HLA-matched status is not allele-level truth
REJECTED_OR_CIRCULAR_TRUTH invalid · not_applicable · excluded	rejected or circular visible in inventory and excluded from every accuracy denominator
development same-resource independent exploratory invalid
